SUMMARY OF SKILLS

Current Graphic and Interactive Design student with an open mind to learn and improve. Experienced in both digital and traditional art. With skills in Adobe programs, building creative designs, typography, and photography. Focused on school and the obtaining of a degree in graphic design. Having time to work wasn't always easy. However, working in the summer of 2021 to assist a friend helped in gaining experience as not only a cashier, but also a chief in the preparation of various foods to the specification of the customer. Being known as a fast learner and willing to work with, and listen to my coworkers. Able to handle things independently even under stress.
